

realise

Bleep Boop Beep

The Inaugural Web Dev Coding Competition

The challenge

- Create something cool using WebAudio
- Can be tackled as individuals or in teams
- Only needs to work in desktop Chrome
- Does not have to be original
- Existing libraries can be used, but vanilla JS will be more impressive

The prize

- On Thursday 17th September
- Will be judged by Greg or Jon
- Individuals can only enter one submission
- The winner/s will receive **£100** Amazon vouchers

BUT

- Only if we have at least three entries

Some ideas

- Virtual keyboard
- Drum machine
- MIDI player
- Musical toy
- Random music generator
- Don't touch the wire game
- Identify the highest tone
- Morse code generator
